Library Provides Summer AHEC Orientations & Tours

The Laredo Regional Campus Library staff has already been busy this summer providing orientations and tours for students attending the many summer programs offered by the Mid Rio Grande Valley Area Health Education Center (MRGV AHEC). It is hoped that many of these students will go on to careers as area health professionals in order to help reduce the lack of access to primary care in the Laredo area and surrounding border regions of Texas. Laredo is located in Webb County which is one of many South Texas counties designated as a medically underserved Primary Care Health Professional Shortage Area (HPSA).

Top Left: Erika Silva presents a Library orientation to over 75 AHEC students attending a summer college preparatory academy

Bottom Left: Maria Cantu provides a library tour for over 30 AHEC summer science camp students

Bottom Right: Laredo area 6th & 7th grade students attending an AHEC summer science camp enjoy looking at the anatomical models at the Laredo Regional Campus Library

EYL

* Faculty, students, and staff are welcome to come by the Library to pick up a free copy of the Summer 2015 issue of the NIH MedlinePlus magazine.

* For departments wishing to print in the Library, we ask that you set up printing arrangements in advance. To get a card for printing/copying for your department, please contact the Library Administration Office at (210)567-2408.

Library to Provide Support for Fellowship Program

Library staff will also provide support for a new fellowship program in July, Epidemiology and Public Health Research. Planned in cooperation between the Laredo Regional Campus and Texas A&M International University (TAMIU), the program will be attended by 7 area high school students. Statistical software, SAS, has been installed on 4 desktops in the Library computer lab and 3 new book titles have been added to the Library collection in support of the program.
