*Affordable Care Act (ACA) services continue to be available for the Laredo Community:
 -Computer and internet access
 -Basic computer assistance
 -ACA informational materials
 -Referral for individual registration assistance (Gateway)

*Faculty, students, and staff are welcome to come by the library to pick up a free copy of the fall issue of the *NIH MedlinePlus* magazine.

Featured Resource: [An@tomy.tv](http://Anatomy.tv)

Anatomy TV provides a database of detailed 3D interactive anatomy models. Models include the head and neck, shoulder, hip, thorax and abdomen, spine, knee, and pelvis and perineum. An Anatomy Study Guide is included. Intuitive controls allow the user to zoom, rotate and peel away layers to educate and communicate with an ease and directness that was never possible with print. A wealth of supporting media, MRIs, X-rays, live-action movies and animations are also included to supplement *Anatomy.tv's* high resolution, computer-generated models.

Breast Cancer Awareness Month

October has been proclaimed National Breast Cancer Awareness Month. Here in the United States, we are experiencing a major change in our focus on health care. With the advent of the Affordable Care Act, a woman cannot be denied coverage because of a pre-existing condition. Other measures focus on prevention and early detection.

According to Jen Schulte, a government relations director for the American Cancer Society Cancer Action Network, "The new health-care law covers preventative services for these women. Those services include annual mammograms starting at age 40, genetic testing and counseling for women who may have a family history of cancer. It also reduces the amount of out-of-pocket expenses which makes health care more accessible and affordable".
