SUNDAY

CLOSED

E.Y.L.

*In response to a review of current local market rates for color copying, the library has changed the price for color copying and printing to 50 cents per page. The previous price was 75 cents per page. The price for black and white copying and printing remains 10 cents per page.

*Faculty, students, and staff are welcome to come by the library to pick up a free copy of the fall 2014 issue of the NIH MedlinePlus magazine.

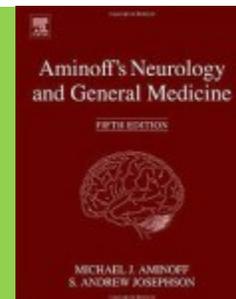

What's New in Clinical Key?

[Clinical Key](#) is a database which contains a wealth of medical and surgical information. Content includes over 1,000 e-books, over 500 e-journals (including the famous "Clinics" titles), and thousands of videos and images. Also included is point-of-care content from First Consult.

Here's what's new:

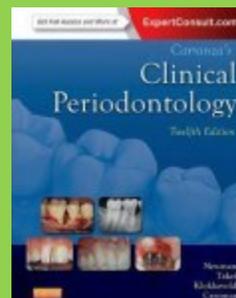

[Aminoff's Neurology and General Medicine, 5th ed. \(2014\)](#)

A classic reference book that provides comprehensive coverage on the relationship between medicine and neurology. An authoritative tool that links general medical conditions to specific neurological disorders.

[Carranza's Clinical Periodontology, 12th ed. \(2015\)](#)

A core resource in periodontology that is used in both the classroom and in clinical practice. Includes the most current periodontal information with coverage from fundamental procedures to advanced technologies in reconstructive, esthetic, and implant therapy.

[Cellular and Molecular Immunology, 8th ed. \(2015\)](#)

A highly visual text that provides a thorough understanding of immunology and the management of human disease. Includes updated illustrations, 3-D art, and new online animations.

[Essentials of Physical Medicine and Rehabilitation : Musculoskeletal Disorders, Pain, and Rehabilitation, 3rd ed. \(2015\)](#)

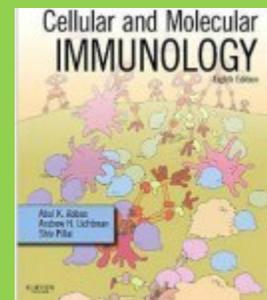

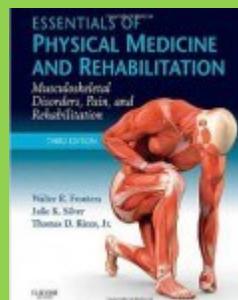

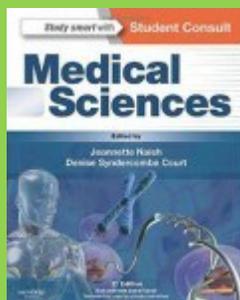

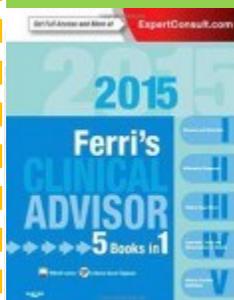

An authoritative text that includes the latest advances in the diagnosis and management of musculoskeletal disorders and other conditions requiring rehabilitation. Presents a concise and well-organized format with an extensive treatment section.

[Medical Sciences, 2nd ed. \(2015\)](#)

An integrated text of basic medical and clinical science, designed to approach the basics of medicine from a clinical context. Features detailed explanations about research findings and clinical relevance sections. Appropriate for medical students and other students in the health sciences.

[Ferri's Clinical Advisor \(2015\)](#)

A comprehensive reference text that covers diagnostic and therapeutic information for over 700 medical conditions. Organized in a clear and concise format, and designed for rapid retrieval of information. Appropriate for physicians and allied health professionals.

New Experience When Using Ebrary!

[Ebrary](#) is a collection of electronic books in a variety of subject areas, including medicine, nursing, behavioral health, environmental health, public health, allied health and more. Users will notice a new and improved e-reader for Ebrary e-books! The new e-reader is much more intuitive and easy to follow especially when it comes to downloading e-books. Instructions for downloading onto a desktop and/or mobile device are now provided at the point of download. An Adobe Digital Editions account will still be necessary to download books. Click [here](#) to view an example of the new e-reader format online.
